**HAL** is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

## Period spacings in red giants

### III. Coupling factors of mixed modes<sup>★</sup>

#### (Corrigendum)

**Key words.** stars: oscillations – stars: interiors – stars: evolution – errata, addenda

A table with the coupling factors and their uncertainties, computed as in Sect. 3 of the original paper, has been appended to the article as a CDS/VizieR document. This table downloadable at <http://vizier.u-strasbg.fr/viz-bin/VizieR?-source=J/A+A/600/A1> contains 5166 stars identified with their KIC numbers, coordinates, large separations  $\Delta\nu$ , period spacings  $\Delta\Pi_1$ , and seismic estimates of the mass.

---

<sup>★</sup> A table is only available at the CDS via anonymous ftp to [cdsarc.u-strasbg.fr](https://cdsarc.u-strasbg.fr) (130.79.128.5) or via <http://cdsarc.u-strasbg.fr/viz-bin/qcat?J/A+A/600/A1>
